

## Overview

The online banking home page is divided into three sections:

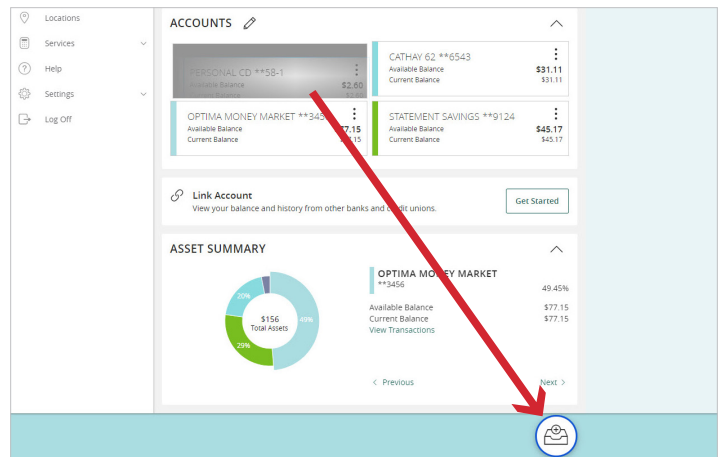

- The left-hand menu contains the menu with all the features.
- The middle pane contains the account tiles, plus the Financial Tools.
- The right-hand menu contains Quick Links at the top, and helpful messages on offers.

1. The account tiles have the name of the account, which you can change, and the current and available balance.
2. **Asset Summary** displays the asset and debt allocation for accounts.

3. You can Select and drag an account to the envelope icon which appears at the bottom right side of the screen. This creates a new account group.

- 4. You can name the new group by selecting the pencil icon. You can drag additional accounts into the new group. You can create additional groups if you choose.
